UNFINISHED BUSINESS REPORTS

1 2012 Status of Property Standards Services in the City of Cornwall, Including Administration and Enforcement of By-laws Authorized by Provincial Statute

Click for detail --> 

RESOLVED,

That the Council of the City of Cornwall receive this report and to include the following for consideration in the 2013 budget:

- upgrade the part-time (3 days per week) property standards position (vacant as of August 10, 2012) to full time status and diversify the role to include augmentation of general Bylaw services.
- Upgrade the permanent part-time (3 days per week) data entry clerk's position to full-time, in order to receive property standards complaints and schedule inspections. As of early 2012, this administrative function was expanded to bolster Building Inspection Services in receiving and scheduling time sensitive requests for building inspections; when staffing resources permit, to be further expanded to similarly serve plumbing inspections, property standards and appropriate general Bylaw complaints.
- As practiced by some Ontario municipalities, where property standards act to remediate site conditions (arrange with contractor to have work carried out, and other incremental roles in such a situation), that a one hundred and fifty dollar (\$150.00) administration fee be levied against the property owner.
- That we continue to work towards and look for dedicated I.T. support to further implement and enhance the CityView software and associated mobile technology.
