selling for very high prices.

A.M.O. Convention - Alderman Bough reported briefly

on his recent attendance at the A.M.O. convention. He noted that this was the first meeting of the newly formed Association of Municipalities of Ontario which comprises the former Ontario Municipal Association and the Association of Ontario Mayors and Reeves. He referred to the address given by Honourable D. McKeough in which the Minister indicated that, by 1975, it is expected that the 900 Ontario municipalities could be reduced to 300.

Alderman Bough went on to relate that the Resolution Committee studied resolutions submitted by all municipalities and then made its submissions to the association. Every segment of local government, he went on to state, was considered by the association at this convention.

Alderman Bough then produced a small pamphlet prepared by the Provincial Government setting out the new method of tax relief which is to be ascertained at the time of filing income tax which is replacing the Ontario property tax.

Provincial Assessment - Alderman Cameron suggested that the municipality endeavour to learn from the Provincial Government, what the local ratepayers might expect when the re-assessment of all properties is accomplished, to become effective in 1975. It was pointed out that the important thing to remember in the new assessment being undertaken is that every property owner will be assessed on the same basis, while, at present, there are many inequities in a number of municipalities. It was the general opinion of members of Council that a full explanation will be given by the government in 1974 prior to the implementation of this new assessment.

Radar Patrol - Alderman Samson suggested that the Police Commission be asked to consider the installation of signs at the eastern entrance to the City indicating that radar equipment is in use within the municipality.

Pavement on Danis Avenue - Alderman LeBlanc stated that he has been approached, at various times, by residents on Danis Avenue between Second and Third Streets inquiring as to when

a permanent pavement will be built, noting that the storm sewers were installed last year. It was pointed out to Alderman LeBlanc that this street is first on the list of priorities and, if Council decides next year to proceed with pavements, the work will be done at that time.

Adjournment - On motion of Alderman Lebano, seconded by Alderman Samson, Council adjourned into Committee of the Whole at 10:45 p.m.
