

CITY COUNCIL #15-74June 10, 1974.
7 p.m.

A Regular Meeting of City Council was held this evening with the following members present - His Worship Mayor E.C. Lumley, Aldermen G. Leger, A. LeBlanc, G. Samson, A. Clement, D. Webster, D. Fawthrop, F. Guindon, K. Bough, A. Lebano, J. Pescod and M. Holden.

Excused from Meeting

On motion of Alderman LeBlanc, seconded by Alderman Clement, Alderman G. Cameron was excused from attendance at this evening's meeting. Carried.

DELEGATIONSJ. Crump - Construction of Garage

Mr. Crump complained to Council of a work stoppage ordered on a garage that is under construction adjacent to his home on Fraser Avenue. He stated that after much discussion with the Assistant Zoning Administrator and the City Engineer, he was finally issued a permit and after starting construction, was advised that with a Mansard type of roof a building can only be built to a height of 9 feet to the roof deck, whereas with a different type of construction the height of a building is set out as 9 feet to the eaves.

Mr. Adams explained that when the permit was issued to Mr. Crump, he was made aware of the definition as applied to the word "height" under the Zoning By-law and in particular in the case of a Mansard roof.

After much discussion by members of Council, it was moved by Alderman Guindon, seconded by Alderman LeBlanc, that the by-law be amended which would grant Mr. Crump his request. It was explained that such an amendment would take considerable time in order to receive Ontario Municipal Board approval. The motion was withdrawn.

It was moved by Alderman Clement, seconded by Alderman Guindon, that Mr. Adams be authorized to issue a permit in conformity with the specifications of Mr. Crump. The motion was withdrawn.

It was moved by Alderman Leger, seconded by Alderman Lebano, that Mr. Crump make application to the Committee of Adjustment. Mr. Crump was advised that by following this procedure he would be acting within the law and his neighbours given an opportunity to speak for or against the construction of the garage.

Alderman Lebano also pointed out that Council could be held liable for contravening a by-law should Mr. Crump be given permission to proceed with a building higher than permitted under the Zoning By-law.

G. Metivier - Local Improvements Northwestern Section of City PE #17-74

Mr. G. Metivier presented a petition signed by parents of students attending General Vanier, Notre Dame, Ste. Therese, Vincent Massey and Sacred Heart schools. Mr. Metivier stated that he spoke on behalf of approximately 3000 students whose parents were asking for the construction of Fifteenth Street from Churchill Street to its western limit, and of Lisieux Street to Notre Dame School, and the opening of Fifteenth Street to Brookdale Avenue. He also complained of the condition of the property owned by Cedar Rapids in the vicinity of the schools. Mr. Metivier stated that many of the homes have recently been improved and while the people were aware of the work carried out by the City, a great deal of improvement is still needed.

Mayor Lumley advised Mr. Metivier that tomorrow he will get in touch with the Director of Public Works to contact Cedar Rapids asking that they clean up their property.

In accordance with a suggestion made by Mr. Metivier, Mr. Courville stated that he will inspect this area this week and see if the City would be eligible for a grant under the NIP Program. Further a representative of the Ministry of Housing is to visit the City this week and the question of eligibility of this area under the NIP or RRAP Programs will be discussed with him.

Alderman Pescod pointed out that, while the City would like to carry out more improvements in the area due to the large volume of traffic to the schools, certainly a great deal had been done over the past 7 years.

The Engineer was asked to prepare a report for Council, if it is determined that the needs of this area do not fall within the scope of grants available under provincial programs.

Alderman Webster noted that while an 8-foot high fence has to be erected around a salvage yard, the fence need only be 10 feet from the street line, whereas an industry is required to have a 50-foot setback. He felt that the setback for a salvage yard should be greater.

Mr. Courville reported that he had sent out notices to 33 property owners, particularly in the Eleventh St. area, to clean up their yards. Only one person had complied and as a result he would be sending a further notice giving them until June 27th to comply, otherwise they would be penalized under the Minimum Standards By-law.

A serial number or the initials C.P.D. are stamped on each bicycle which indicates that, if a bicycle is picked up in another municipality, the licence has been purchased in the City of Cornwall.
