Delegations -

Truckers Association - Mr. L. Eastman explained that he had been in contact with the Director of Public Works to determine who would make the call-outs for trucks to be used to remove snow. He was told that the City was satisfied in the manner in which the Association had made call-outs in the past and that new rates were being discussed. He then saw a notice in the newspaper requesting those truckers who were interested in removing snow for the winter to register at the workshop. He added that he was under the impression that the arrangements that had been made in earlier years were satisfactory and that he was now present before Council requesting that the City use Association trucks only. He went on to indicate that approximately 96% of the truckers living in Cornwall belonged to the Association and, in the past, the roll call was done alphabetically.

The Director of Public Works, upon being questioned, advised that to this date 38 trucks had been registered as the result of a notice that appeared in the newspaper and that truckers had been called in the order in which they were registered, not taking into consideration whether they

belonged to the Association or not; or whether the truckers were living within the City limits or not. He added that the rate being paid is similar to the Ottawa rate of \$19.00 per hour and that those truckers not making use of boards on their trucks were being paid a lesser amount.

Members of Council indicated that they could see no reason why the directions given to the Director of Public Works should be altered and agreed that the procedure being followed by the Director continue.

Cable 11 - Mr. M. Lalonde was present at Council to ask permission to televise live the regular meetings of City Council. He assured the Council that there would be a minimum of equipment and personnel involved and, at no time, that his operations would be expected to interrupt the normal proceedings of the meeting.
