1980-84 Capital Forecast

City Council reviewed every project listed for 1980. In discussing environmental services, it was moved by Aldermen Cameron and Samson that Rule 10 be invoked to allow Mr. Marcellus to address Council on his needs for water and sewer services to his trailer park.

Mr. Marcellus presented the same arguments as those he had enumerated at the Council meeting of February 25th. It was explained to Mr. Marcellus that he will require a complete plan of subdivision in order to have these services available to his property. It was also indicated to Mr. Marcellus he may require the balance of this year to have all documents finalized at which time the Council will be more than prepared to consider his needs for 1981.

Once all the expenditure classifications were reviewed, it was moved by Aldermen Cameron and Pescod that the expenditures listed for 1980 be accepted as presented.
