The following minutes were presented for adoption. There being no corrections noted, the minutes stand approved.

1. That the Regular Council Meeting #34-02 dated, November 25, 2002 be approved and verified correct;
2. That the Special Budget Meeting #35-02 dated December 2, 2002 be approved and verified correct.

PRESENTATION

1. 2003 Budget Presentation

Mr. Cecil Vincent, Chief Administrator and Mr. Dave Dick, Finance Manager provided Council with an overview of the 2003 Budget Highlights. Several key issues contributing to the overall increase were identified as wages and benefits, where Protective Services, being Land Ambulance, Police and Fire Services account for 64% of the overall 8.1% cost increase. Additionally, impacts of the OMERS' holiday being fazed out beginning in January of 2003, and key operational changes in the amount of \$4,191 million were recognized.

Mr. Vincent indicated that an assessment growth year over year was based on two separate components. One being new building activity and the other being change in assessment. The level of true growth was based on a net increase within the building activity from 2002 to 2003 tax rolls of 32 properties with a net value of \$14,234,800 and a net increase in CVA (2001 vs 1999) of \$114,687,600 for a total increase in assessment of \$128,923,400. (6.41%). The level of new growth fell significantly from 2001 to 2002 in excess of \$300,000. It was noted that due to the increase in assessment, taxation revenue could increase \$2,878 K with a 0% tax rate increase.

Capital Projects requested for 2003 is \$17,307, for an overall increase from the 2002 Budget request of \$9,984,000. In order to achieve the necessary level of expenditures, within the Water and Sewer budgets, the water rates would need to be increased on average of 3.5% or \$23.47 per household per year. Community Reinvestment Funding (CRF), and Progress fund projects were reviewed. It is expected that the progress fund will generate an additional 1.947 million in 2003 for additional projects, once the pool commitment has been committed.

2. Central Fire Communication's Centre Needs Analysis of Voice and Data Wireless Communication

Mr. Rob Fraser, representative of Fraser, Poposki & Associates Inc., along with Mr. George Poposki, representing a Wireless Communication Engineers and Consultants Firm, introduced their proposal (RFP 02-R04) on the Corporation's needs review, implementation alternatives and budgetary analysis for Voice and Data Wireless Communications for the City of Cornwall and the United Counties of S.D. & G.

The Scope of this proposal is to include all mobile and portable, data and voice radio operations and existing communication equipment of Public Works, Transportation, Police and Fire for the City of Cornwall and the United Counties of S.D. & G. Mr. Fraser indicated that the main objective of this project is to determine if the existing radio communication infrastructure and user equipment meets the current and future operational needs of each agency, being identified within the scope. Based upon the needs assessment conclusions, provide alternative design solutions, budgetary cost estimates and time lines for each agencies migration to new system implementations, if required.

In summary, the report presented recommends the following prioritized actions and budgetary expenditures:

1. Install a centralized fire dispatch centre to be operational by year-end 2003 at an estimated cost of \$525,110.00. Phase 2 of the program requires an additional expenditure of \$292,764.00 by year-end 2004 for the acquisition of new user radio equipment. Ongoing operational costs of the dispatch centre can be covered by potential revenues and the recovery of existing outsourcing costs.
2. Upgrade the Cornwall Police radio system for secure voice operation and compliance with Industry Canada's new standards prior to year-end 2004 and at an estimated cost of \$566,000.00

3. Create a contingency budget for the upgrade of Cornwall Transit and Cornwall Works radio systems for compliance with Industry Canada's new standards by 2005 at an estimated cost of \$45,206.00 and \$85,754.00 respectively.
4. Create a contingency budget for the upgrade of Township Public Works radio systems for compliance with Industry Canada's new standards by 2005 at an estimated cost of: South Glengarry \$45,820.00, South Stormont \$35,584.00 and North Glengarry \$11,508.00.

Mr. Fraser, concluded by indicating that the above budgetary expenditures represent accurate capital cost allowances for the acquisition of radio communication assets.

Moved by Councillors André Rivette and Syd Gardiner that this delegation be received.

A recorded vote to receive the delegation resulted as follows:

For: Councillors Don Deebank, Denis Carr, André Rivette, Korey Kennedy, Claude Poirier, Susan Carter, Dean Hollingsworth, Perry Lalonde, Syd Gardiner, Naresh Bhargava and Mayor Brian Sylvester

DELEGATIONS

1. **St. Lawrence River Institute of Environmental Services**

Mr. Pat Finucan, Tom Kaneb, Dr. Jeff Ridal

Mr. Finucan, Director, Academic Operations of St. Lawrence College, Cornwall Campus introduced members of the St. Lawrence River Institute in attendance this evening. The presentation was conducted by three of the members, being Pat Finucan, Tom Kaneb, President of St. Lawrence River Institute of Environmental Sciences and Dr. Jeff Ridal, Manager and Chief Research Scientist. They delivered data as to the work they have undertaken on the drinking water, quality of our river and the health of the ecosystem on the shores of the St. Lawrence River. Their studies will continue to identify why the population of the yellow perch is diminishing within the St. Lawrence and further studies will be undertaken on the content of mercury being found.

The St. Lawrence River Institute has been recognized as the jewel of our river front and must continue to grow if we are to attract and keep youth within our community to study and work. They have entered into a partnership with St. Lawrence College where the College provides an environmental science program, degree option with SUNY Potsdam and provides for campus enhancement for physical and academic achievements in order to produce Environmental Science Technicians.

The Institute is presently engaged in a fund raising campaign that provides results as follows:

Total Project costs	\$1,150,000
Cash and Pledges	\$ 40,470
Land from College	\$ 250,000
Current total	\$ 651,470
NEEDS	\$ 500,000

The St. Lawrence River Institute is seeking Council's endorsement to the project and that Council provide the needed dollars in the amount of \$500,000.00 from the Progress Fund to see the project advance.

Moved by Councillors Denis Carr and Syd Gardiner that Council support the continuance of the St. Lawrence River Institute within our community and refer this presentation to Administration for further report.

A recorded vote resulted as follows:

For: Councillors Don Deebank, Denis Carr, André Rivette, Korey Kennedy, Claude Poirier, Susan Carter, Dean Hollingsworth, Perry Lalonde, Syd Gardiner, Naresh Bhargava and Mayor Brian Sylvester

NOTICE OF MOTION**1) NON-SMOKING in Public Places BYLAW**

Proposed by Councillors André Rivette and Claude Poirier as follows:

WHEREAS City Council has been told by outside agencies that they will lose a large portion of their source of funding from bingo lottery events and will suffer financially to the point of eliminating programs if the 100% non smoking Bylaw takes effect May 1, 2003; and

WHEREAS officials from the Eastern Ontario Health Unit are not able to deliver the promise made to council specifically when they told members of City Council that if they took the first step in implementing the non smoking By-law, all other areas within the Health Unit jurisdiction would follow before the City of Cornwall implemented the 100% non smoking By-law on May 1, 2003; and

WHEREAS the existing non-smoking in public places Bylaw 010-2002 in the City of Cornwall is working and is far above any restriction put on businesses throughout the Eastern Ontario Health Unit jurisdiction;

NOW THEREFORE BE IT RESOLVED that the City of Cornwall not implement the 100% non-smoking in public places bylaw in bingo halls, bars and billiard halls as of May 1st, 2003 until such time as the Eastern Ontario Health Unit can persuade all municipalities under their jurisdiction to implement the same bylaw or that the province decides to implement a province wide ban in either case, would create a level playing field for all businesses in the area.

2) Presentations and Communication Discussions

Proposed by Councillors Korey Kennedy and André Rivette:

WHEREAS, the Corporation of the City of Cornwall has on numerous occasions faced a shortfall of time when dealing with major internal financial issues under the heading of "presentation" or "communication"; and

WHEREAS by curtailing the discussion regarding the Corporation's financial situation, it limits Council's understanding, knowledge and discussions, therefore seriously affecting how the City's finances should best be dealt with; and

WHEREAS, without Council's full and complete knowledge and understanding of its internal finances it jeopardizes how tax dollars should best be allocated;

NOW THEREFORE BE IT RESOLVED, that whenever an item pertaining towards the City's budget or financial well being is headed under "presentation" in our open council agenda, that no additional items be addressed under "presentation or delegations " during that meeting.

3) Infrastructure Needs

Proposed by Councillor Claude Poirier and Dean Hollingsworth

WHEREAS there presently exist a no debt policy to finance the City of Cornwall's capital projects; and

WHEREAS the City of Cornwall's annual infrastructure needs, surpass the money's available to fund these projects without significant tax increases or delaying of these projects;

BE IT THEREFORE RESOLVED that Administration prepare a report for Council's consideration that would outline whether the present no debt policy is sustainable. If the answer is negative;

BE IT FURTHER RESOLVED that Administration explore other options that could be available to finance the cities current and future infrastructure needs.
