2014-12-NM Continued Oral Health Access to those Children with Urgent Dental Needs

Click for detail --> 

Whereas the City of Cornwall wishes to support the following resolution from the Eastern Ontario Health Unit:

Whereas beginning August 2015, it is proposed by the Ministry of Health and Long-Term Care that all six dental publicly funded programs be integrated into one common program. This new program, Healthy Smiles Ontario II (HSO II), will only have a family financial means test to determine eligibility; it will no longer consider oral health needs of the child; and

Whereas with this current understanding and extrapolating to August 2015, 713 children in the Eastern Ontario Region will no longer have access to oral health programs as they will no longer be eligible for the new HSO II program and will not have a needs based program to cover their dental treatment; and

Whereas with this current understanding and extrapolating to August 2015, 1500 children in the Eastern Ontario Region will no longer have access to oral health preventive services such as fluoride and sealants; and

Whereas with the current understanding and extrapolating to August 2015, the impact on a child and its family will not only be financial but will also have a severe impact on a child's health and well-being;

Now therefore be it further resolved that the "emergency" program that has been suggested by the Ministry be based on dental needs and be adequately funded to meet the utilization rate of the three current needs based treatment programs. The current level of funding is \$21 million (\$17 million for CINOT and \$4 million for CINOT Expansion); and

That the current levels of funding provided through general programs budgets and Healthy Smiles Ontario budgets, be maintained for Health Units, in order to ensure equitable access to preventive oral health services for all children.

Now therefore be it further resolved that copies of this motion be forwarded to local municipalities, the Association of Municipalities of Ontario (AMO), local school boards, local MPPs, the Champlain LHIN, all Ontario Boards of Health, the Association of Public Health Agencies (alPHa) in request for their support to urge the provincial Ministry of Health and Long-Term Care to take positive action to meet current needs of our population.
